## New Models

Based on positive feedback received from our clients on the newly redesigned B6+ TLC 200 which we launched in May 2009, IAG is proud to introduce our new and reengineered B6+ Toyota Hilux and B6+ Chevrolet Suburban. Based on findings from our R&D department, the new design offers far superior ballistic and blast protection in comparison to the standard B6 and B6+ armored vehicles, therefore significantly increasing the survivability of the passengers.
