Cash-in-Transit Vehicles

According to the FBI's Bank Crime Statistics Report, almost 7000 banks were robbed in 2006, with 37 of these being armored car robberies. This resulted in losses of \$72 million, of which only \$11.2 million have been recovered. The need for armored Cash-In-Transit (CIT) trucks has never been greater. At International Armored Group, we have many years of experience building such vehicles on a wide range of chassis to meet this demand. Please contact or visit our website for more information.
